Wednesday, June 21	12:00 PM – 1:30 PM	Sailing Review/Applied Module	EOS-Main 203
TBD	TBD	Final Exam Review Session	TBD

DESCRIPTION: The office hours we are offering to you, the students, is completely **optional** and will be **recorded and posted** for students who cannot make it. That being said, we understand that students might like some face-to-face interaction. Thus, these sessions provide an opportunity to **meet, engage and work together with your instructors and peers**. Note that you are **not graded for your attendance**, as this would be unfair to those you are truly abroad, and that the office hour sessions, while very helpful, are wholly supplementary to the online material.

Each 1.5-hour session will be broken down into two 45-minute segments:

**First half: QUESTION & ANSWER – Starting on May 17<sup>th</sup>, prior to each session (except weekend)**, students are encouraged to **submit questions about the session topic by email or Slack** for the group to engage in and answer. Responses will be compiled in-session and posted.

**Second half: ACTIVITY – An insightful and fun activity** will be prepared by the instructor for each session. The activity will serve to consolidate/**review the learning content** in each topic.
