

Capstone Project Rubric

| Group Points                  | Exemplary   | Proficient   | Developing  | Beginning   |
|-------------------------------|---|--|---|---|
| Completeness & Accuracy       | (8 points)<br>Thorough explanation with 1-5 bullet points/sentences for each slide. Integrates concepts learned in the course where appropriate.  | (6 points) Mostly thorough explanation and integration of course concepts; very little missing information.  | (4 points)<br>Somewhat thorough explanation, but little application of concepts learned in the course or missing key information.   | (0 points) Little to no explanation of slides. No application of concepts learned in the course.  |
| Cohesiveness of the Sections  | (4 points) Ties together information from all sources. Writing demonstrates an understanding of the relationship among the material.  | (3 points) For the most part, ties together information from all sources. Writing demonstrates an understanding of the relationship among the material, with only some disjointedness.   | (2 points)<br>Sometimes ties together information from all sources. Disjointedness is apparent and authors' writing does not demonstrate an understanding of relationship among material. | (0 points) Does not tie together information. No flow between sections. Difficult to read.  |
| Depth & Clarity of Discussion | (4 points)<br>Narrative is clear. A hypothetical student who missed the presentation would be able to read the narrative while viewing the presentation slides and gain a full understanding of the fire and weather situation. | (3 points)<br>Narrative is mostly clear, with some minor inconsistencies. A hypothetical student who missed the presentation would be able to read the narrative while viewing the presentation slides and gain a mostly full understanding of the fire and weather situation. | (2 points)<br>Narrative is somewhat clear, but there are noticeable inconsistencies and discussion of fire and weather situation does not go in enough depth.                             | (2 points)<br>Narrative is unclear. Conclusions drawn about the fire and weather situation are incorrect or incomplete; weak or minimal analysis. |
