9. Hurricanes are Rare in Canada

About 4 to 5 hurricanes per decade, but we get more “former” hurricanes.

Most of those rare hurricanes hit Atlantic provinces. Some former hurricanes cause heavy rain and flooding over ON & QC.

Some other recent hurricanes include:

- 2021 - Hurricane **Larry** - Cat. I at Newfoundland
- 2010 - Hurricane **Earl** - Cat. I at Nova Scotia
- 2010 - Hurricane **Igor** - Cat. I at Newfoundland
- 2009 - Hurricane **Bill** - Cat. I at Nova Scotia & Newfoundland
- 2008 - Hurricane **Kyle** - Cat. I at Nova Scotia
- 2007 - former Hurricane **Noel** - Cat. I at Nova Scotia & New Brunswick
- 2006 - former Hurricane **Florence** - Cat. I at Newfoundland

Noteworthy Storms:

- 2003 - Hurricane **Juan** - Cat. I to 2 at Nova Scotia. 20 m waves.
- 1954 - former Hurricane **Hazel** - Toronto 225 mm rain, killed 81 people.
