

# Personal Safety Information Checklist

This document is mainly for the owner's reference.

Owner's name \_\_\_\_\_

## Emergency information

In the event of an **emergency**, you should know where the following **equipment and egress routes** are located: (i.e., include all of the areas that you work in). You can find this information in **Building Emergency Response Plan ([BERP ESB](#), [BERP EOSM](#), [EOSS](#))**, in the **Appendix 2: Emergency Response Key Plans**.

Work location (e.g., ESB room 2020)	Fire alarm	Fire extinguisher	Nearest emergency exit

Designated meeting area or muster station(s) for your work location(s) (Consult the end of this document to find the muster station of all buildings)

# Personal Safety Information Checklist

## Personal protective equipment

Your supervisor (or delegate) should provide appropriate orientation and training in the use and care of any PPE or clothing that is required to safely perform your work. Required PPE has to be provided.

Hazardous material and emergency response information (If you will not work in a laboratory tick this field and skip this section).

In case of spill or an event in which you come into contact with a **hazardous material**:

Item	Room number	Specific location in the room
<b>Eyewash and emergency shower</b>		
<b>Material Safety Data Sheets</b>		
<b>Chemical Spill Kit</b>		
<b>Biological Spill Kit</b>		

## Safety concerns and reporting hazards

If you have any concerns or hazards to report, contact any of the [Local Safety Team members](#).

## Additional resources

- [Review the Lab and Department Safety section in the EOAS website](#)
