

Tenure-Track Faculty Positions
Hydrogeology and Surficial Geologic Processes
Eastern Michigan University

The Department of Geography and Geology at Eastern Michigan University invites applications for two tenure-track faculty positions at the assistant professor level with specialization in 1) **hydrogeology**, and 2) **surficial geologic processes** effective September 2017.

Hydrogeology. The candidate will be expected to be committed to excellence in teaching and to conduct an active research program in hydrogeology. Instruction responsibilities include teaching upper-level undergraduate courses in hydrology and hydrogeology, as well as introductory-level courses in geology, earth science, and environmental science, and directing undergraduate research projects.

Surficial Geologic Processes. The candidate will be expected to be committed to excellence in teaching and to conduct an active research program in surficial geologic processes. Instruction responsibilities include teaching upper-level undergraduate courses in geomorphology and glacial/Quaternary geology, as well as introductory-level courses in geology, earth science, and environmental science, and directing undergraduate research projects.

A Ph.D. in geology or related discipline at the time of appointment is required. Applicants should send a letter of application that includes a statement of qualifications and teaching and research interests, a detailed curriculum vitae that includes education, publications, grants, and teaching experience, copies of undergraduate and graduate transcripts, and the names, addresses, phone numbers, and e-mail addresses of at least three references familiar with your teaching and research potential. Go to <http://agency.governmentjobs.com/emichedu/default.cfm> for information on how to apply for the position.

The review of applications will begin December 16, 2016, and continue until the position is filled. For additional information about the university see our website: www.emich.edu
EMU is an equal opportunity employer, and the institution is regularly recognized by U.S. News and World Report for its diversity.
