

# Writing Across the Curriculum+

## Reading Week Educator Workshops

Registration is now open for the Writing Across the Curriculum+ (WAC+) Reading Week Workshops! These 2-hour workshops are designed to support educators in the teaching of communication skills in science.

- **(NEW) Non-traditional Communication Assignments**  
Tuesday, February 21, 10 am-12 pm
  - Alternatives to the traditional papers or lab reports used to teach communication skills, including social media, blogs and online videos.
- **Teaching Succinct and Accurate Science Writing**  
Wednesday, February 22, 10 am-12pm
  - How to teach students to write clearly for audiences within, and outside, their discipline, focusing on sentence-level issues.
- **Strategies for Student Success with Writing**  
Thursday, February 23, 10 am-12 pm
  - Teaching and mentoring strategies for helping students develop a better writing process.

To register for any of these workshops, please visit:  
<https://survey.ubc.ca/s/WACworkshop/ReadingWeek2017/>.

Enrollment is limited to 20 participants per workshop. For full workshop descriptions, please visit our website:  
<http://scwrl.ubc.ca/wac/workshops/>.

-----  
The Writing Across the Curriculum+ (WAC+) Program is a TLEF-funded collaboration between the Science Centre for Learning and Teaching, the Centre for Writing and Scholarly Communication and the Department of Chemistry and is designed to support the teaching and learning of written, oral and other non-traditional forms of communication in the sciences.
