# Geochemical and Temporal Influences on the Enrichment of Acidophilic Iron-Oxidizing Bacterial Communities

A seminar by Dr. William Burgos

Wednesday, March 22<sup>nd</sup>, 4:00-5:00 PM

LSC3 – Life Sciences Institute

## ABSTRACT

Two acid mine drainage (AMD) Sites in the Appalachian Bituminous Coal Basin were selected to enrich for Fe(II)-oxidizing microbes and measure rates of low-pH Fe(II) oxidation in chemostatic bioreactors...
