

Part-Time Sessional Lecturer EOSC 311 – The Earth and Its Resources

Applications are invited to apply to teach one section of EOSC 311: The Earth and Its Resources during the 2024-2025 academic year. The successful candidate will teach in Summer Term 1 (May – June, 2025).

Course Description: An introduction to the Earth with emphasis on its industrial and aesthetic resources. Rocks, minerals, gold, diamonds, sediments, fossils, oil and gas, canyons, and volcanoes and the processes that create them. Not for credit for students in specializations administered by the Department of Earth, Ocean, and Atmospheric Sciences.

EOSC 311 is a Hybrid Course where all term's work is done by students online on Canvas. There are no 'in person' lectures in this course. All required term time content and assessments already exist on Canvas. More information about this course is available at <http://www.eos.ubc.ca/courses/eosc311/eosc311.htm>.

Responsibilities of the Sessional Lecturer will include, but are not necessarily limited to, the following: organizing all administration for the course including preparing the course website before the course opens; organizing and supervising teaching assistants; interacting with students through email, Piazza discussion boards and Zoom regularly to resolve issues related to course content, technical issues with Canvas, personal issues, etc.; creating, organizing, invigilating and marking the Final Exam which will take place 'in person' at UBC, Vancouver at the date and time designated by UBC Exam Services at the end of June, 2025; finalizing course marks and uploading these to Workday. Mentoring will be provided by an experienced instructor.

Applicants must hold an M.Sc. or a Ph.D. (or be enrolled in a Ph.D. program) in a related field and have a demonstrated interest in teaching at the undergraduate level. Previous online course experience, teaching experience and/or instructional training are desired. (Note: UBC Ph.D. students without an M.Sc. must have passed their candidacy examination in order to apply; students currently enrolled in a M.Sc. program are not eligible for this position).

Please provide a curriculum vita. Applicants who have not previously lectured in the EOAS Department should also provide a one-page statement describing your scientific background and qualifications for teaching, and the names of two referees.

Applications and supporting material should be addressed to:
Dr. Erik Eberhardt
Department of Earth Ocean & Atmospheric Sciences
University of British Columbia

E-mail submissions should be sent to Hazel Evangelista, HR Administrator (hevangelista@eoas.ubc.ca) by March 21, 2025.

UBC hires on the basis of merit and is committed to employment equity. All qualified candidates are encouraged to apply; however, Canadians and Permanent Residents will be given priority.

Equity and diversity are essential to academic excellence. An open and diverse community fosters the inclusion of voices that have been underrepresented or discouraged. We encourage applications from members of groups that have been marginalized on any grounds enumerated under the B.C. Human Rights Code, including sex, sexual orientation, gender identity or expression, racialization, disability, political belief, religion, marital or family status, age, and/or status as a First Nation, Metis, Inuit, or Indigenous person.

Sessional lecturer positions are governed by Part 7 of the Collective Agreement on Conditions of Appointments for Sessional Faculty Members.
